## Technology

AIR

**VENTILATION:** Maximum ventilation thanks to the eight air intakes. High breathability due to the volume of circulating air inside the helmet and the minimum contact surface with the head.

CLIP

**LAMP CLIPS:** Helmet is equipped with strong removable carrying clips, compatible with all headlamps with elastic bands on the market.

CHINSTRAP  
EN 397

**CHINSTRAP EN 397:** Four point chinstrap fixed to the external shell without metal rivets with Quick release fastening and opening in conformity with EN 397. Provided with lateral divider for adjusting the length of the straps.

ECO

**ECO LEATHER CHINSTRAP:** Eco-leather, hypoallergenic, washable chinstrap which is extremely comfortable and helps avoid irritation of the skin.

RING TO HOOK

**RING TO HOOK:** Fitted with a special hook on the chinstrap which allows the helmet to be connected to the harness.

FAST3DRY

**FAST 3DRY:** High-tech 3D fabric that dries very quickly, helping the dispersion of moisture to the outside and leaving a pleasant feeling.

FRONT PAD

**REMOVABLE FRONT PAD:** Front-end padding easily removable and washable. Developed to guarantee maximum breathability and optimum moisture absorption. Designed to adhere to the front, optimizing comfort.

UP&DOWN 2.0

**UP & DOWN 2.0:** The innovative and exclusive UP & Down 2.0 technology ensures a precise and comfortable fit around the back of the head. The center wheel and the two side wings allow the quick adjustment of the helmet not only in width but also in height and tilt.

VISOR

**VISOR ATTACHMENT:** Provided with attachment for fitting Zenith visors.

EARMUFFS

**EARMUFFS FITTING:** Built with integrated slot for earmuffs. Compatible with KASK earmuffs.

## Performances

PROTECTION AGAINST TOP IMPACTS	5 Kg from 2 m 100 J
PROTECTION AGAINST SIDE, FRONT AND REAR IMPACTS	5 Kg from 0,5 m 25 J
PROTECTION AGAINST THE PENETRATION OF OBJECTS	3 Kg from 1 m 30 J
CHIN STRAP RELEASE > 15 kg <25 kg	
RETENTION SYSTEM EFFECTIVENESS	
LOWER TEMPERATURE RESISTANCE TEST	T= -30°C
PROTECTION AGAINST SIDE DEFORMATION- LD	
PROTECTION AGAINST MOLTEN METAL SPLASHES- MM	

Standard requirements

Additional test in conformity with the requirements of the EN 12492

Optional requirements

## Additional Information

### GUARANTEE

3 years starting from the purchasing date.

### SHELF LIFE

10 years starting from the production date (production date is printed on a label contained on the inside of the helmet).

Inspect the helmet regularly to check for any damage! Cuts, abrasions, deformation or changes in colour represent important elements for checking the helmet status.

### CLEANING

Clean the helmet only with water, neutral pH soap and a soft, clean cloth. The inner lining should be washed by hand in cold water or in the washing machine (max 30°C - 85°F). Do not use chemical detergent or solvent.

### STORAGE

When not in use the helmet should be stored away from direct sunlight or source of heat.

### ADHESIVE APPLICATION

Do not apply adhesives, solvents, stickers or paint that do not comply with the manufacturer's specifications. Any alteration or intervention not provided for may impair its protective function.
